Work Experience

Udemig

2023 – Present

Full-Stack Developer

- Enhanced user experience by developing web applications with visually compelling front-end designs.
- Used modern technologies such as React, TypeScript, and Next.js, along with Bootstrap, Tailwind, Redux, and SCSS to build efficient, user-centric applications.
- Ensured smooth collaboration within the team by managing version control through Git and GitHub.
- Played a key role in e-commerce projects, delivering high-quality results while adapting to various work environments.
- Integrated MongoDB and Firebase to enable fast and reliable data storage and retrieval for web and mobile apps.

Didiyos

2022 – 2023

React Native Developer

- Used RESTful APIs for data communication and integration.
- Implemented local data management using SQLite.
- Identified and resolved bugs in iOS- and Android-compatible projects.
- Actively contributed to an e-commerce project, completing tasks both independently and as part of a team.
- Managed version control using Git.

Arabuleu

2021 – 2022

Front-End Developer

- Participated in an e-commerce project using Node.js and Express.js.
- Built and consumed RESTful APIs.
- Worked with SQL and MongoDB for data management.
- Followed clean code principles for maintainable and efficient development.
- Managed version control using Git.

ASB Bank
